

REMARKS

In the office communication, the Examiner noted that the application fails to comply with the requirements of 37 C.F.R. §§ 1.821-1.825 and requested the applicants to submit a sequence listing in paper copy and computer readable form. The applicants hereby submit a sequence listing in paper copy and computer readable form for the nucleotide and amino acid sequences in the application. Corresponding sequence identification numbers have also been added for the sequences in the specification and Fig. 1 by amendments made herewith.

Per 37 C.F.R. §1.121(d), the applicants submit the enclosed Fig. 1 for replacing the Fig. 1 in the application with the proposed changes marked in red. Approval of the changes is respectfully requested. Upon Examiner's approval, new Fig. 1 including the changes will be filed.

The content of the paper and computer readable copies of the sequence listing submitted herewith are the same. No new matter is introduced by the submission and the accompanying amendments.
